Born

MACFARLANE—In this city, Dec. 8, 1894, to the wife of George W. Macfarlane, a daughter.

She's a Goer

The torpedo destroyer Ardent, of the British navy, made wonderful speed in her trial trip lately, in a gale of wind. She made a mean speed of 27 1/2 knots an hour. The run was about equally divided with and against the wind. No assistance was gained from the wind when moving with it, there then appearing to be a calm on deck. Progress in the opposite direction was greatly retarded, as the feet of those on deck were caused to slide by the force of the blast.

The Guard Out

The Citizens' Guard was called out last night and a large number occupied the Police Station until 3 o'clock this morning, when they dispersed. It was feared by the authorities that there would be an uprising to rescue the prisoners Bush, Crick, Nawahi and Weed. Everything was quiet about town to-day and only in a few places were groups of natives seen discussing the arrests. Some of the National Guard boys were singing on Nuuanu street during the noon hour.

Detective Larson Believes Men Are Seeking His Destruction.

Detective Larson has reported to Marshal Hitchcock that three foreigners are conspiring to take his life. The detective did not ask for any precautions to be taken, as he stated he felt able to cope with the gang. He was followed the other evening and he took the men on a long spin. Finally he allowed one of them to get up close, when he asked him if he was following the questioner. The man shook his head and walked on. It is believed the men want to get Larson out of the way so that one of them can jump into his boots. All are members of the special police.

Dyspepsia

Mrs. Judge Peck Tells How She Was Cured

Sufferers from Dyspepsia should read the following letter from Mrs. H. M. Peck, wife of Judge Peck, a justice at Tracy, Cal., and a writer connected with the Associated Press:
"By a deep sense of gratitude for the great benefit I have received from the use of Hood's Sarsaparilla, I have been led to write the following statement for the benefit of sufferers who may be similarly afflicted. For 15 years I have been a great sufferer from dyspepsia and heart trouble.

Almost everything I ate would distress me. I tried different treatments and medicines, but failed to realize relief. Two years ago a friend prevailed upon me to try Hood's Sarsaparilla. The first bottle I noticed helped me, so I continued taking it. It did me so much good that my friends spoke of the improvement. I have received such great benefit from it that I can heartily recommend it.

I now have an excellent appetite and nothing I eat or drink distresses me. It also keeps up my strength and health.

Hood's Sarsaparilla Cures

Weakness, indigestion, loss of appetite, and all the ailments arising from impure blood.

LADIES' COLUMN.

Commencing Saturday we will keep open evenings till the holiday trade is over. We have put electric lights into the store, and are ready for the rush. From day to day our business increases. We are kept moving from morning till night; not only ourselves but the goods are; what is the reason of it? It is simply this: We have been whispering words of economy; we have talked about judicious buying, until at last you realize it at you can really obtain first-class goods of us at prices you would pay for shoddy goods elsewhere. We call them Quick Sales and Small Profit Prices, which means in plain English that there is no such thing as just the same goods for less money. You realize it; everybody realizes it; hence our increased business. Judicious buyers, shrewd buyers, those that appreciate the best goods for the least money, are the ones you see snapping up the new goods as fast as they go on the counters. They are the class of buyers we are looking after.

This week you will find a genuine Bargain counter loaded down with CALICOS, GINGHAMS, ORGANDIES, COTTON CHALLIES, SHAWLS, ETC., ETC.; come and look at them, and if you don't think they are the best goods for the money, don't buy them.

Have you counted up the Sales Checks you have received from us yet?

REMEMBER, we keep open nights from Saturday, Dec. 15th, till the Holidays are over.

To Plantation Managers.

The following letters received from Mr. Jno. A. Scott, Manager Hilo Sugar Co., refer to the AVERY FERTILIZER DISTRIBUTORS and STUBBLE DIGGERS, for which the Hawaiian Hardware Co. are sole agents. Mr. Scott first saw these implements at the Columbia Exhibition in Chicago, and was so favorably impressed with their appearance that he immediately ordered samples shipped to the Hilo Sugar Co. Mr. H. Deacon, Manager for Pepeekeo Sugar Co., secured one each of these implements from Mr. Scott and expressed his satisfaction with them in the letter published herewith:

PEPEKEO, Aug. 8, 1894.

J. A. SCOTT,
Dear Sir:—In reply to yours in relation to the "Avery" Stubble Diggers and Fertilizer Distributors.

I would say that I have been using the Diggers almost constantly since I received them, and am highly pleased with them. As the name signifies, I find them specially adapted to the work of loosening the soil about ratoon stools, and they may be used to great advantage either before or after the Fertilizer Distributors, thereby putting the ratoon fields in the very best condition for a rapid growth. They are a light draft machine, and I would recommend them to any plantation owner.

The Fertilizer Distributor is a great labor saving machine, and I find that I shall need one more to fill our requirements here.

I remain, yours respectfully,
(Signed) H. DEACON,
Manager for Pepeekeo Sugar Co.

WAINAKU, Hilo, Aug. 9, 1894.

Mr. E. R. HENDRY, Honolulu.

Dear Sir:—In reply to your enquiries regarding the working of the "Avery" Stubble Diggers and Fertilizer Distributors. I would say that I have been using the Diggers for some months and have dug some eight hundred acres of stools with them, thoroughly loosening the soil in and about the roots, thus giving them an excellent opportunity for many more shoots to come forth than usually do. And I find that there is a thicker stand of cane where it has been stubbled dug. The machine works in fertilizers on ratoon stools without any further hand labor, mixing them thoroughly with the soil and allowing them to get to the roots of the plant.

The Fertilizer Distributors I have had at work for some time and I have fertilized about four hundred acres with them thus far and they are doing all the makers claim for them, distributing the fertilizers in an even manner on each side of the cane and in whatever quantity desired. They are a good labor saving machine and are doing the work of several men. These machines are of light draft and strongly made and there is nothing liable to get out of order. I can fully recommend these to plantation owners.

I remain, yours truly,
(Signed) JOHN A. SCOTT,
Manager Hilo Sugar Co.

We received by the Alameda a carload of Avery & Sons' implements which include Fertilizer Distributors, Stubble Diggers and Improved Sugar Land Cultivators. The latter has solid discs and shovel attachments. They are admirably adapted for use in the soil here and will be found necessary on every plantation.

The Fertilizer Distributor is arranged to work on land where the furrows are irregular with the same facility as where they run even.

Any information regarding these machines will be furnished on application to

HIRES' ROOT BEER.

IT IS A HOMEMADE AND HOMEMAKING BEVERAGE.

It is very easily prepared, and if the plain directions are followed, it will always be good. Every member of the family, from the baby to the grandfather, can enjoy Hires' Root Beer, and every one of them will have better health for each swallow they take. It improves the appetite, purifies the blood, and tones the whole system. Children especially delight in Hires' Root Beer. Its preparation interests them, and its use does them good. In thousands of homes, "Hires' Root Beer that mother made," will be among the happiest recollections of childhood. It cleanses the system of the poisonous humors that develop in kidney and urinary diseases, and in fact, in any case that arises from an impure state of the blood.

Distinctly understand Hires' Root Beer is without adulteration or any chemical or artificial admixture—we prove it—it is made in our open Laboratory. No secret process. We take the best Herbs and Roots, boil them down, bottle them and send them to you. Perhaps there isn't another Root Beer Laboratory in the country open to public eye. Everybody knows Hires' Root Beer—chemicals can't approach nature. Will you use natural Root Beer and satisfy your thirst and strengthen your body, or will you use artificial Root Beer to save a few pennies and ruin your health? There is ten times as much Hires' Root Beer sold than all other Root Beer extracts combined.

National Cane Shredder

PATENTED UNDER THE LAWS OF THE HAWAIIAN ISLANDS.

Mr. John A. Scott, Manager of the Hilo Sugar Company, gives the following wonderful record of the working of the NATIONAL CANE SHREDDER, which was erected by their works at the commencement of the crop just harvested:

"During the past week the Hilo Sugar Company's mill exceeded any of its former records by closing the 125 hours grinding with an output of 3000 tons. This is fully 10 percent more than the best work of former years.

"The three roller mill being 26 in. by 54 in., and the two roller mill 30 in. by 60 in. The first mill doing this amount of work in an efficient manner and with great ease, compared with work on whole cane, owing to thorough preparation of the cane by the National Cane Shredder, recently erected by the Company.

"And by its use the extraction has been increased from 3 percent to 5 percent on all kinds of cane, and in some cases 80 percent has been reached; the average being 10 to 15 percent, according to quality.

"I continue to find the message from shredded cane better fuel than from whole cane.

"The shredder has been working day and night for seven months and has given me entire satisfaction, having shredded during that time about seventy thousand tons of cane, and a large part of it being hard ratoon.

"The shredder and engine require very little care or attention."

Plans and specifications of these Shredders may be seen at the office of
